

The School of Jewellery Ireland Ring Sizer.

To find your ring size, please use a ring you already own which fits the same finger as the ring you intend to make or purchase.

1. Print this PDF at full size. Ensure your printer does not 'shrink to fit' or scale the page to anything other than 100%.
2. Check the print size is correct by measuring the line below. It should measure 10cm.

3. Place the ring over the circles.
Begin by placing your ring over the smallest circle and making your way up through the sizes. Find the circle which completely fills the inside of your ring, without any overlap. This is your ring size.

Please note: This ring size is a guide only and is dependant on the correct print size.
